Subject: Pregnancy is NOT a disease!
Date: Wednesday, September 28, 2011 10:31:38 AM

- Pregnancy is not a disease to be prevented
- Contraception should not be a mandated "preventive health service."
- Respect for conscience is foundational to a just society.
- At a minimum a robust conscience protection should be granted, not only for all religious employers, but also for all employers, insurers, and policy issuers with moral, ethical, or religious objections.
- The limitations contained in the regulations for religious employers make the exemption virtually meaningless.
