Message box: Comment for CMS-9992-IFC2:

Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast-feeding support and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women. And it helps women stay healthy.

Employers must not be able to deny a woman this coverage. Contraception is the very definition of preventative care. Let a woman make her own decision – she knows her body and beliefs better than her bosses do!
Please remove the proposed religious employer refusal provision from your Women's Preventive Services rule.

Thank you,
Sarah P. Hanson
