To Whom It May Concern:

I am writing today to ask that you rescind the mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients.

If you do not reverse course I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

Please protect the conscience rights of people like me who object to being forced to offer or subsidize (through tax money) contraceptive or sterilization services that can take the life of early unborn children.

Many, many Americans strongly object to ending the life of unborn children. Don't make us pay for it.

Sincerely,
Kristin Parmar
