---

Dear Secretary Sebelius:

I am requesting that you add contraception to the preventive health services that go into effect on Sept. 23<sup>rd</sup>, 2010, at no cost to patients. In today's world it makes no sense to disqualify this service. Contraception is part a vital part of preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities. Please do not allow anymore unnecessary and unreasonable delays in access to contraceptive care as preventative health services.

*Regards,  
Janie Wilson
