## General Comment

We have a web site with all Trust information and updates.

As of now, we also provide a hard copy newsletter every month of the school year for our members.

We have educated our members to use the web site. It would benefit us if all information could be transmitted electronically. In addition to a general web site where all members have to register, members are provided with their own personal enrollment site where any and all changes to their status and profile can be provided, edited, and updated and members can also access their own personal claim's site to view the status of claims and EOB's.

With the increased use of electronic technology, we would find electronic disclosure to be an asset for our employee benefit plan.
