**Subject:** Support the Fiduciary Rule

To whom it may concern:

I want to express my strong support for the implementation of the Fiduciary Rule, and my hope that the Department of Labor will not delay or decrease this rule. To be quite frank, I cannot see how requiring financial advisers to prioritize their clients' interests could possibly be controversial. This is so common-sensical that it beggars the imagination to conceive of why one would oppose it, aside of course from greed.

Yours sincerely,

Mark Paglia
