Currently, some financial advisers can legally provide financial recommendations that serve their own interests instead of their clients' interests, including when providing advice regarding rolling over investments in the Thrift Savings Plan.

The fiduciary rule requires investment advisers to put their clients' best interests first when giving investment advice. Write an official comment to the Department of Labor asking them not to delay or rescind the rule. Please ensure that the Fiduciary Rule stays in place to Protect Vulnerable citizens from those who would prey on them and cheat them out of their hard earned savings!!
