## General Comment

The effort to dismantle the Fiduciary Rule is an attack on the citizens of the United States! I have every right to know the agenda of the people who handle my investments. Eliminating this rule is just outright theft! It is indecent and an effort to use up American citizens just to make more money off of us! It is not as if this rule impedes the right for investment companies to make money, but it does make them behave in an ethical manner.
