General Comment

Please do not block this rule RIN 1210-AB79. It has been shown time and again that the public needs protection from investment firms/ Wall St. I am not opposed to advisors making a living but not by ripping off hard working Americans and stealing what little we are able to save for retirement. Working class folks are under assault by politicians who are working for big money in America as it is. The future of our health care/ medicaid& medicare, social security, our unions etc. are all in jeopardy. The interest of the citizens need to become priority 1 and unfortunately it is our elected officials& government we have to rely on. Please try and fit this concern into the agenda when you all are enacting this rule. Thanks much for your consideration.
