Subject: RIN 1210-AB79

I cannot afford mis-management of my retirement savings — Do not delay or impede the Fiduciary Rule which protects my interests. I worked very hard for the skimpy retirement funds I have accrued and idon'thave the knowledge of investments to properly monitor my own accounts. If you remove the safety precautions that hold financial advisors responsible to me, I could be wiped out in a few risky gambles. Just because Wall Street holds power over many Congressmen does not mean you people should abdicate Your responsibility to US, the people who you are supposed to represent and protect.
