Dear Sirs,

I beg you to rescind the egregious rule put in place during the Obama Administration known as Obamacare for IRA's.

I do not want the government dictating to me what investments I can have or not have in my IRA or 401k. I consider this a blatant attempt to take over my retirement investments by government bureaucrats who are less able to do so than the highly paid consultants at Scottrade and other investment institutions.

Sincerely Yours,
C. Fisher
