I am writing to urge the overturn of this Obama era rule affecting my investment options on IRA's and 401K's. The fact is that I am quite capable of deciding which investment options I wish to pursue. I just had a meeting with my CFP yesterday to further refine my goals as I reach retirement age I certainly don't want nor do I need a layer of bureaucracy between me and my choices. I don't need someone in D.C. to deem what is in my best interests. How would they know? Please revoke this rule before it does irreparable harm to the individual investors in the country. Thank you in advance for doing the right thing for individual liberty.
