As a retired American who depends on his retirement funds for the future welfare and maintenance of my wife and my living standards, I insist President Trump be give the full support of individual Americans like myself who do NOT want the nanny state telling me in what I can and cannot invest my assets.

Please, President Trump, delay and REPEAL the **fiduciary rule** immediately! Do not allow the false impression of lobbyists and special interests convince you into inaction. You MUST repeal in the interest of free markets and Americans' welfare.

Thank you,  
Robert Deutsch,  
N. New Jersey
