Subject: RE: RIN 1210-AB79

I am a US citizen who has been impacted by a financial planner who did not fully disclose the reasons he was recommending certain investment choices for my portfolio. Had this regulation been in place when I was making decisions about funds to choose for my hard earned money, my financial planner would have been required to inform me of ALL the reasons he was suggesting certain funds.

This Fiduciary Rule needs to be enacted immediately!
