Department of Labor,

This document is biased for the ACA and the Obama administration's employees left over from the last FAILED Administration and Policies.

Please Read the Truth:

#1 Compare CBO's projections for AHCA with ACA. You will see how inaccurate they were then so why trust them now esp. since the CBO people are Obama's left over administration.

#2 Research the years spent and the money spent by our liberal government trying to shove this program down our throats only to have it fail at our expense.

#3 Stop listening to and reading only liberal news propoganda which is now called - FAKE NEWS
