5-4-17

Dear Secretary Acosta,

I understand that you'd like to delay and/or rescind the "Fiduciary Rule". I am writing to OBJECT to that plan! It is imperative that financial advisors act in their clients' best interests when providing retirement investment advice. What is the point of hiring someone to give bad advice?? Middle class investors need to know the professionals they hire for this purpose give the best possible advice, + it's up to our govt. to regulate

- Janet
