Subject: Bravo!!

Dear Mr. Secretary,

I heartily commend you for stating your "respect for the rule of law" in not extending the delay of implementation of the fiduciary rule. We sorely need people in this administration who understand and respect the laws and governing documents of our democracy. Please continue to make such decisions not only in your own department but whenever anyone else in the administration, including, and especially, the president, appears ready to ignore or circumvent laws or the constitution.

Thank you!!

Tim Larkin
