**To:** Executive Secretariat  
**Subject:** Revision of Fiduciary Rule, please

June 5, 2017  
Secretary of Labor  
Hon. R. Alexander Acosta

Secretary Acosta:

Please expedite an intensive review of the Fiduciary Rule by the Dept. of Labor in view of making revisions before the final January 2018 implementation date.

As a small investor, I am learning first hand the restrictions in service caused by this rule. Unintended consequences of government regulations are a destructive by-product of rules such as this one.

Financial service providers will work with whatever rule is made final, I am sure. But the changes have already negatively impacted services available on retirement accounts and investment avenues such as no-load mutual funds.

I only hope that the damage is reversible. Please give this matter your most urgent attention.

Thank you.
