Subject: Don't delay the conflict of interest rule RIN 1210-AB79

I support the implementation of the Department of Labor's conflict of interest rule and oppose any delay of the rule. Millions of Americans are counting on their 401(k)s and IRAs and depend on investment professionals for advice about managing these complex retirement plans.

Retirement savers should be able to trust that their financial advisers put their clients' interests first. But without this conflict of interest rule, some financial advisers are profiting at their clients' expense.

The proposed delay of this rule is unjustified and leaves retirement savers unprotected. Please implement the rule beginning on April 10th.

Sincerely,
