Subject: Remove the Fiduciary Rule (RIN 1210-AB82)

Employee Benefits Security Administration U.S. Department of Labor,

The "fiduciary rule" aims to place another layer of bureaucratic confusion before investors. Enough of the nanny state. Investors are able to make decisions on their own, to invest only where they understand the risks and rewards, and to recognize unscrupulous financial advisors -- financial advisors who are already heavily regulated by the federal and state governments. I urge the Department of Labor to remove the fiduciary rule in its entirety.
