Employee Benefits Security Administration U.S. Department of Labor,

I urge the Department of Labor not to roll back the fiduciary rule. The working people of this country have a right to their retirement savings in full. Any advice that would reduce the retirement savings of hard-working Americans is no better than theft, and repealing this rule will allow it on a national scale. Working people, not Wall Street advisers, deserve their retirement savings, so please preserve and enforce the Fiduciary Rule.
