Subject: RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule

Employee Benefits Security Administration U.S. Department of Labor,

Americans are in the midst of a retirement security crisis—depending on every dollar they can save to afford a basic standard of living. Conflicted advice costs retirement savers \$17 billion each year. The current fiduciary rule is the right way to deal with this problem. Nothing about the fiduciary standard constrains financial advisers from providing broad-based investment advice to their clients—it would simply require them to do so with increased transparency and reduced conflicts of interest. I urge the Department of Labor to protect working people and retirees by fully implementing and enforcing the fiduciary rule.

This has affected me personally. I am stuck in a terrible 457(b) due to an unscrupulous 'financial adviser'. This would not have happened were I dealing with a fiduciary. We need honesty and transparency. Please help to protect us.
