Department of Labor,

I hear that advice given with conflicts of interest costs citizens saving for retirement \$17 bil each year. The current fiduciary rule is exactly the way to deal with this problem. Nothing about the fiduciary standard constrains financial advisers from providing broad-based investment advice to their clients—it would simply require them to do so with increased transparency and reduced conflicts of interest. Please protect working people and retirees by implementing and enforcing the fiduciary rule to the very FULLEST extent. Thank you.
