**Subject:** RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule  
**Date:** Monday, July 24, 2017 6:03:07 PM

---

Employee Benefits Security Administration U.S. Department of Labor,

Keeping the current fiduciary rule is important. Nothing about the fiduciary standard constrains financial advisers from providing broad-based investment advice to their clients—it would simply require them to do so with increased transparency and reduced conflicts of interest. Please fully implement and enforce the fiduciary rule.
