Subject: RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule
Date: Thursday, July 20, 2017 5:46:51 PM

Department of Labor,

Americans are in the midst of a retirement security crisis—depending on every dollar they can save to afford a basic standard of living. Conflicted advice costs retirement savers \$17 billion each year. The current fiduciary rule is the right way to deal with this problem. Nothing about the fiduciary standard constrains financial advisers from providing broad-based investment advice to their clients—it would simply require them to do so with increased transparency and reduced conflicts of interest. I urge the Department of Labor to protect working people and retirees by fully implementing and enforcing the fiduciary rule.

It seems that the previous financial meltdown was sufficiently profitable to Wall Street and the GOP that it is now trying to repeat the same destruction. The People are expecting this illegitimate regime to work on their behalf.
