Subject: Cancel DOL Insurance Industry Regulation
Date: Thursday, August 03, 2017 9:47:10 AM

Secretary Acosta,

You need to stop this non-sensical DOL legislation. No more regulatory action is needed in the insurance world. Where is the public outcry against fixed Indexed annuities? Where is the cost benefit analysis confirming the public is ripped off with these wonderful products? Regulate the Securities side all you want, but keep the insurance sector completely out of it. No further DOL regulation. 100% return to the insurance world as it existed on June 8th 2017. I am dismayed you did not squash the DOL power grab upon your immediate entry into office. Surely you know, and understand, this DOL effort to enhance Lawyer's pocketbooks and use the insurance industry as a straw man. Where will it stop after the 1 Jan 2018 dateline? What industry is next? Stop this now.
