Employee Benefits Security Administration U.S. Department of Labor,

This rule is expensive and has the DOL way out of it's lane. If fully implemented this rule will warm the small investor because valuable financial advice will be too expensive for the average American to get it. Therefore, middle class will once again be left in the dark. I do feel a "Best Interest" standard in the financial industry is needed, it should encompass ALL of the financial industry and it should be put in place by the SEC & FINRA, not the DOL. This rule does not properly help anyone other than lawyers.
