

## AFL-CIO FIDUCIARY RULE COMMENTS RIN1210-AB82

Enclosed are comments from 39,493 working women and men who support the fiduciary rule. This rule was created to strengthen the retirement security of working people and retirees. Delaying it or rolling it back in any way would only further tilt the playing field against working people and retirees for the benefit of Wall Street. Please protect the financial rules and regulations that protect working people.
