## General Comment

I am in favor of allowing association plans to be formed for the purpose of providing another avenue of health insurance in addition to employer sponsored and the very restricted individual market. I am vehemently opposed to allowing stingy plans and plans that avoid providing the 10 Obamacare essential benefits. A skimpy plan will not provide the comprehensive health benefits & emergency care that people can rely on for health, wellbeing and freedom from financial ruin if/or when faced with a healthcare crisis such as heart disease, diabetes or cancer, to name a few.
