General Comment

My husband and I own a farm in Cumberland County, and his family has farmed for generations. He works full time raising beef and crop farming. I manage the books and was working part time. We were able to get our health insurance through the PA Farm Bureau. When we lost health insurance, due to Obamacare, I went to work full time which gave us health insurance, and the cost is substantially higher. This has had a direct impact on farming operations. We are hoping you will allow PFB to offer health insurance to members again.
