General Comment

Please note as of The Affordable Insurance Act became effective, my out of pocket expense went up tremendously
I pay Eleven hundred dollars for a monthly premium and deductibles of \$1,000 first out of pocket before Insurance even pays anything and then 6,500 dollars before I meet total max. This is not fair to the hard working middle class American. We are the people who give thee Affordable Insurance for everyone. I feel we are penalized for working so hard to make America grow.
Please take into consideration that we could use a break on our health insurance as well. The Copays are on everything including lab work or any other health related issue we use to stay health. I am requesting a change to make it more affordable to the the hard working American who is not eligible for help with our insurance.
