General Comment

Please do not change the laws regarding access to information regarding our pensions and 401(K) plans. As a member of the senior population, I prefer to receive this type of information directly mailed or emailed to me. I do not appreciate it when I have to search a website to find information that should be easily accessed. I think I speak for many senior citizens when I say this. A single text or email telling me where I can find important information is NOT sufficient. It is lazy on the part of the companies handling our retirement funds.

Sincerely,

Mary and David Causer
