General Comment

What is up with the idea of no hard copies of my pension and 401k information about changes in plans or accrued benefits etc.

Mailing a packet once about where to get changes or needed information online only is unacceptable to me !!!

These accounts are mine and any money accrued in my working life I want Hard Copies delivered by mail if I request What about people that have no computer or are not savvy to use them ? Send Hard Copies on info requested ... What is it , cost of paper ? Dont get it ! Cut back salaries of managers of pension funds or 401ks ...

How many people actually request this information? Not many I bet ... Take those additional costs out of money in those pension funds or 401ks if thats the case / label as expenses as their are so many things labeled as expenses anyways !!!

My 2 cents ...
