Name: Brian Centeno

General Comment

It is the duty of retirement fund managers to faithfully support the fiscal wellbeing of pensioners. There is no place for the unethical use of these funds to pursue political, ecological, or other secondary quasi religious goals. Through your rule making, any failure to enact policies that unequivocally support American workers FINANCIAL well-being debases the purpose of retirement fund programs. You must act forcefully and decisively to require fund managers to invest funds for the greatest fiscal return of pensioners!
