Comment on FR Doc # 2020-13705

Submitter Information

Name: Lacy Moon

General Comment

My 401K is my contributed money and I would like the opportunity to invest how I see fit. By limiting the ESG factors from investments, I am limited to invest in companies that provide social benefits but also potential profits for my investments. with any investment it may or may not return my investment positively - it is an inherent risk of 401k investments. I want my investment to fund socially beneficial companies at the least.
