General Comment

This is a complex proposal and I need to think more deeply ok to response in detail, but one item stands out in myedoate analysis which is the inadequacy of 30 day period for comprehensive review and response.

I ask that you please ensure a standard and sufficient amount of time for strong feedback to be provided.

ESG related investment considerations are very often financially relevant and highlight blind spots in traditional investing risk and value considerations, especially for those with longer-term horizons.

Thank you for your consideration.
