Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0327
Comment on FR Doc # 2020-13705

Submitter Information

Name: Angela Fayad

General Comment

Holding companies back from including ESGs in their investing portfolio is not only a disservice to the communities those funds would serve, it also takes the decision power away from employees, who as time goes on continually demand more and more ethical investments. Do not create barriers for companies to offer their employees ESGs.
