## General Comment

It is absolutely ridiculous and a violation of my right to free speech, and possibly other rights, to prohibit me from considering social justice values when I make an investment. How dare the government violate my liberty in this manner. Im frankly shocked that a party which states it values liberty and a free market, would decide that they need to constrain the market for investment products in this manner. Clearly you are motivated to consolidate the power of the wealthiest people in this country and stifle the advancement of the marginalized or the improvement of the planet just to name a couple of worthy causes.
