Financial Factors in Selecting Plan Investments

Comment On: EBSA-2020-0004-0002
Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0375
Comment on FR Doc # 2020-13705

Submitter Information

Name: Michael Monroe

General Comment

It is absurd that the Department of Labor is even considering restrictions on socially responsible investments (SRI). 401k plans and other retirement funds must have full latitude to invest in anything legal based on the desires of customers. Prohibiting investments in SRIs not only restricts freedom, it's bad business, as SRIs perform just as well as non-socially responsible investments.
