Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0386
Comment on FR Doc # 2020-13705

Submitter Information

Name: Cheryl Mitchell

General Comment

This proposed rule is not about "protecting" investors, it is about protecting Big Oil and Big Fossil Fuel industries. I wonder why it is that many proposed rules and laws are given a title that is exactly the opposite of what the rule or law will accomplish. Apparently, the government is convinced that ordinary citizens are far too stupid to figure out what is really happening. I adamantly oppose the government's rule titled, "Financial Factors in Selecting Plan Investments."
