Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0393
Comment on FR Doc # 2020-13705

Submitter Information

Name: Nicholas Sexton

General Comment

This will just make people roll over into a gold or crypto IRA instead.

You're going to make these people pull all of their funds completely out of stocks to get away from climate change and oil companies.

Millennials pay attention to this stuff, and they won't just give up and leave it there like Gen X. All you're doing it's pulling money out of the market.
