For years, I have put money into my retirement fund in order to continue to support myself throughout the remainder of my life. That retirement fund was meant to provide for me and my family, not as a vehicle to promote other people's political or social interests.

That is why I support this proposed Labor Department rule and I hope that it passes. I do not believe retirement plan managers should be able to sacrifice the returns on my investments to promote their own goals and political agendas. Our 401(k) managers' duties should be to our retirement funds, and to my ultimate goals. Funds in retirement plans should be used in investments that provide the maximum amount of return for me and for others who live on fixed incomes.

I whole-heartedly support this proposed rule and I ask you to support the retired middle-class in this nation by passing it.

Sincerely,  
Bill Nolan
