Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0469
Comment on FR Doc # 2020-13705

Submitter Information

Name: Janet Fox

General Comment

The updated Rule is completely counterproductive in keeping with the investors best interest. The factors such as ESG and Values are in keeping with the clients goals and their own interests. If we are not going to be aligned with these factors then what is in the DOL trying to accomplish. Clearing it is not in keeping with the clients best interest.
