General Comment

PLEASE do NOT allow the proposed rule to become part of the ERISA. As a 61 year old woman who has spent many years supporting IRAs with SUCCESSFUL ESG-themed investments.

Not only can I expect to see reduced income, but our country will clearly be the worse for it.

If the government will not support research and investment in renewables and social issues (claiming that it is the place of private investors) then LET PRIVATE INVESTORS DO IT!

This is OUTRAGEOUS.

And a 30 day comment period? Come ON!?!
