Document: EBSA-2020-0004-DRAFT-0600
Comment on FR Doc # 2020-13705

Submitter Information

Name: Zel Hurewitz

General Comment

Investment managers should retain the right to consider all dimensions associated with their plans, including ESG criteria, so that investors have the option to choose funds that align with our morals, in accordance with free-market principles. I am opposed to this rule change because it is designed to reduce my choice of investment and imposes an unfair burden on investment managers.
