Comment on FR Doc # 2020-13705

Submitter Information

Name: Salvatore Mule

General Comment

To Whom It May Concern:

I am a retiree in the State of Louisiana, writing in support of the Department of Labor's new investment duties rule.

As Secretary Scalia stated, "ERISA plans should be managed with an unwavering focus on a single, very important social goal: providing for the retirement security of American workers."

It truly is that simple. And, it is my hope that the new proposal will ensure political beliefs are not put above the returns of the investor.
