## General Comment

Secretary Scalia,

Thank you for your proposal of the new investment duties rule. I write today in support of the proposal.

As a retired teacher, my family and I depend on the success of our investments. We do not want, nor can we afford, for political ideology to determine investment decisions. Rather, we must have the ease of mind knowing that financial results will be at the forefront of our investments.

I believe this proposal will accomplish just that.

Thank you for your consideration of my letter; and, for our family's future, I hope it will be put into effect.
