General Comment

As an investor and concerned citizen, I am writing in support of protecting ESG-themed investments.

I agree that fiduciaries "should be able to consider whether or not companies have established diverse leadership teams, whether they foster inclusive or discriminatory workplaces, and whether they engage in a variety of other practices that may impact a companys performance."

My family and I demand that our resources be invested in ESGs to protect our investments and align with our values.

The proposed rule-making would hinder financial managers from being able to do the bidding of those whose money is invested.
