Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0745
Comment on FR Doc # 2020-13705

Submitter Information

Name: Ryan Porell

General Comment

I am opposed to the proposed rule because investment managers and plan administrators should retain the freedom to consider all dimensions of their investment plans, including ESG criteria, especially since ESG investing has demonstrated reduced portfolio risk, competitive investment returns, and generally help investors feel morally comfortable with their investments.
