Organization: Prof. Emerita Humboldt State University

General Comment

As a member of the California Public Employees Retirement System, I oppose the move to restrict the use of environmental, social, and governance (ESG)-themed investments within tax-qualified retirement plans governed by the Employee Retirement Income Security Act (ERISA).

I have asked my financial advisor to move all my IRA funds into ESG themed investments which are consistent with my personal values of protecting the environment, fostering diversity, and supporting/investing in local communities.
